

# CNC 3 axis stepper motor controller + 3pcs A4988 motor driver

## Product description:

Model: LBA-B-V5

Appearance size: 96.5X65(MM)

Hole spacing size: 88.5X57(MM)

Laser power: 100mW to 10W supports PWM output (unlimited power)

Power supply: 12V

Axes: XYZ three axes, with XY axis driver by default

Stepper motor: 4-wire 2-phase, 6-wire 2-phase

Motor subdivision: 16 times

Prompt light: Power, laser, XYZ axis status, data transfer, programming, USB

Limit switch: can be connected to XYZ limit switch

Motor power: single motor maximum 2A

## Features:

support for steering gear, adjust laser power, low light function, full optocoupler isolation, anti-interference, support for high-power lasers, customized software micro-carving master, new CNC firmware, gold-plated pins, separate PWM interface, external high-power driver, all Action lights.
